

Internship Opportunities

Get involved with a growing organization dedicated to working for ethical government through peaceful means.

MWEG is a women-led, female membership organization that prioritizes collaboration. We love working together and welcome any opportunity to invite new voices into our conversations. We'd love to have you be one of those new voices!

We are dedicated to making meaningful policy and advocacy impact while also supporting women in their efforts to increase personal capacity. We believe that women of faith can have an outsized impact as they engage from a place of discipleship.
